Gentlemen:-

Your letter of October 4th is at hand. I thank you for your liberal offers as to carrying the interest on my loan but I must raise some money, and under conditions as they exist here I see no way of doing so other than to cash in on my policy.

The total amount of the policy is with added payments \$3,677. I owe you the loan of \$2,000. What will the policy bring in cash, surrender value?

I get no better. My physician is now loading me down with strychnine but it does not appear to remedy my heart trouble. My pulse has fallen to 28. Better set my house in order.

Truly yours
